The Digital Learning Calculator Tool (the “Website”) is an electronic platform created by the Inter-American Development Bank (“IDB”). The IDB is an international organization established by its member countries pursuant to the Agreement Establishing the Inter-American Development Bank. The IDB’s purpose is to promote the economic and social development of Latin America and the Caribbean. The Calculator’s objective is to serve as a reference point for information, data, and knowledge generation on the solid waste and circular economy sector in Latin America and the Caribbean, supporting countries in their digital transformation toward the design and implementation of effective public policies and innovative management models in the information age. Additionally, it serves as a regional meeting point for the IDB and its partners to improve statistics on waste and circular economy management.
